

Comfort Puzzlemat - 18/1

Puzzle mats made of recycled rubber

Unique puzzle system for floor covering in walking ways, waiting areas and milking parlours. The thickness of the mat is 19mm including the 1mm rib at the bottom. The rubber mat has a stone top profile, to insure optimal grip for the cows.

The rubbermat can be cleaned by means of a high pressure cleaner and the rubbermat is resistant to sharp objects and hoofs.

The mats can be used in combination with a manure scraper system.

Advantages

- Ideal solution for wet floors
- Prevents hoof problems
- Improves natural behaviour
- No deformation
- Easy installation
- Custom cut according to sizes in holding area, (rotary) milking parlour or walking alleys
